WORK EXPERIENCE

Sumidenso Automotive Technologies Asia Corporation
Associate System Developer(Trainee)

May 6, 2026 - June 30, 2026

- Completed foundational training in C# programming and .NET development.
- Learned and applied core programming concepts including variables, loops, methods, arrays, classes, and object-oriented programming (OOP).
- Developed console-based applications and coding exercises to strengthen problem-solving and logical thinking skills.
- Participated in technical training sessions covering software development best practices and debugging techniques.
- Worked closely with mentors and team members to understand system development processes and coding standards.
- Built a strong foundation in application development in preparation for real-world system development projects.

Teleperformance
Operations Customer Expert II (Non-Voice Content Moderator)

June 24, 2025 - May 1, 2026

- Performed content moderation and policy enforcement for Facebook Marketplace listings.
- Analyzed user-generated content and identified violations against marketplace policies and community guidelines.
- Tagged and categorized prohibited, fraudulent, and misleading listings to prevent platform misuse.
- Maintained high levels of accuracy and attention to detail while processing large volumes of content.
- Applied critical thinking and decision-making skills to evaluate complex moderation cases.
- Contributed to improving user safety and platform integrity through consistent policy enforcement.
